

Insurance Marketers
Political Action Committee

We need your help so our IMPAC can continue to work for you on issues like:

Crop Insurance:

For the second year in a row, PIA helped avoid proposed cuts to the federal crop insurance program. For much of the last decade billions of dollars in cuts to crop insurance have been included in presidential budget requests. PIA, along with our industry allies, have advocated against any cuts to the program for years.

Taxes:

PIA worked with a coalition of business groups to successfully oppose proposed tax hikes on small business owners as part of the reconciliation bill.

Federal Insurance Office (FIO):

PIA supports legislation to repeal the Federal Insurance Office. The FIO is an ongoing threat to the successful state insurance regulatory system. The House version of the FY23 Financial Services & General Government appropriations bill included several troubling directives to the FIO. Working with our Congressional allies, these provisions were excluded from the Senate version of the appropriations bill.

National Flood Insurance Program (NFIP):

PIA supports the long-term reauthorization of the National Flood Insurance Program. We will seek Congressional action to prevent a lapse, but we will also advocate for Congress to pass a long-term reauthorization of the NFIP that includes key reforms and recognizes the essential role independent agents play in delivering the program to consumers. PIA had a witness testify at a House Financial Services subcommittee hearing on NFIP reauthorization in May 2022.

Please consider making a donation to IMPAC so that our work can continue!
